The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Klitsner *et al.* (US 2002/0122972), for reasons of record.

Applicant's arguments filed 30 May 2008 have been fully considered but they are not persuasive.

Applicants argue that Klitsner *et al.* indicates that Figure 8 is a cross section of a planar fuel cell, with the anodes and cathodes are in the same layer, covered by the proton transfer layer, and thus not a stack, as required by claim 1. This is not persuasive because figures 6a and 6b show multiple layers, and thus a stack.

Applicants that Klitsner *et al.*, in figure 1 (actually figures 1a and 1b), do not disclose first and second current collectors, arranged respectively on the faces of the membrane, between the membrane and respective electrode, since this is a bipolar configuration, rather than the planar configuration of figure 8. Figures 1a and 1b are cited to show electrodes on the opposite sides of the membrane, as opposed to being on the same side. The figures are "embodiments", and thus exemplary of, not limiting to, the invention, and would thus be relevant to each other.

Applicants request that the Examiner consider the Written Opinion of the International Searching Authority. While the International opinion does not reject the present claims under Klitsner *et al.*, the French report, also submitted by applicants, lists this document, under the name "KRAVITZ STANLEY H ET AL", is cited with an "X".

The corrected drawing figures and specification paragraphs are noted.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
